

Standards Committee

1. Standards Committee Mandate

The two primary objectives of the Standards Committee are:

1. To implement the strategy set out by the ISDA Technology Advisory Board, by defining and maintaining the FpML standard, as well as evolving the FpML standard to meet future business needs, including changes to cover more products or support additional business services. Appropriate Working Groups will be established to accomplish this.
2. To review (and subsequently accept or reject) changes that are proposed by Working Groups.

The Committee is also responsible for making the standard available to the general public and releasing new versions.

Please refer to the Standards [Committee Rules of Operation](#) ([../../documents/standard_committee/operations.html](#)) in the Documents section for more details.

2. Standards Committee Members

The Standards Committee members are:

- Eric Richard (BNP Paribas/Chair)
